Education

CAVITE STATE UNIVERSITY

Bachelor of Science in Computer Engineering

Thesis: Design and Development of an Automated Kaong Wine Brewing System

Specialized Data Analytics as Electives

Indang, Cavite

Expected February 2027

TAGAYTAY CITY SCIENCE NATIONAL HIGH SCHOOL

Graduate with Honors. Robotics Club Member. Radio Broadcasting Technical Support

Tagaytay City, Cavite

July 2022

Experience

JONATHAN & CYBER (Remote)

Contract Full-Stack Software Engineer

July 2026

- Built multi-cloud data pipelines ingesting AWS, Azure, and GCP findings with real-time SIEM forwarding to customer Splunk and Sentinel instances.
- Delivered core platform features, including vendor risk intelligence, Microsoft Graph-based phishing simulation, and bi-directional Monday.com sync.
- Hardened Next.js/Supabase production infra by patching critical SSL and RLS vulnerabilities, writing Postgres migrations, and streamlining CI/CD releases.

EAGLEREV (Remote)

Client Communications and Outreach Specialist

United States

June 2026

- Managed client relations and campaign delivery, serving as the primary point of contact for onboarding, strategy, and daily LinkedIn outreach operations.
- Maintained sender fleet health across anti-detect browsers (GoLogin, AdsPower), actively troubleshooting restricted, disconnected, and credit-limited accounts.
- Built prospect lists and executed end-to-end QA, using Sales Navigator qualification, dynamic CSV variable mapping, and send scheduling to maximize deliverability.

WISER

Lead Gen and AI Workflow Engineer

United Kingdom (Remote)

July 2025 – June 2026

- Execute B2B lead generation and data enrichment using Apollo.io, Prospeo, and LinkedIn.
- Architected Claude API workflows to automate personalized outreach and lead qualification.
- Managed executive prospecting and CRM data verification for global outreach campaigns.

CONVERGE ICT

Customer Service Representative and Warehouse Custodian

Tagaytay City, Cavite

July 2025 – May 2026

- Automated ticketing requests via Google Apps Script and Clasp, streamlining service workflows.
- Developed "Mountaintop Dispatch" and "JO" apps to resolve field technician tracking bottlenecks.
- Managed technical support and maintained 100% inventory accuracy for telecom hardware.

Leadership and Activities

COLLEGE OF ENGINEERING AND INFORMATION TECHNOLOGY

Committee Member, Operations and Implementation

Indang, Cavite

Septembet 2024 – June 2025

- Facilitated technical setups and operational logistics for college-wide engineering events and activities.
- Coordinated with student teams and faculty to ensure the smooth execution of departmental operations and technical implementations.

Skills

Technical: Dart, Python, C++, C, Java, HTML, CSS, SQL

AI: OpenClaw, Antigravity, Claude Code, Gemini, ElevenLabs

Tools & IDE: Git/GitHub, VS Code, PyCharm, Jupyter Notebook, Google Apps Script, Google Workspace, Microsoft Office, Salesforce, OBS Studio, Firebase

Content & Media: Short-Form Video Production, Retention Editing, Scriptwriting & Hooks, Sound Design, AI Voiceover (ElevenLabs), YouTube, Shorts Strategy

Language: English, Tagalog

Certifications

Data Analytics

- CISCO Networking Academy: Data Analytics Essentials
- CISCO Networking Academy: Introduction to Data Science
- Udemy: Deep Learning Specialization: Advanced AI
- Cognitive Class: Deep Learning with TensorFlow
- Analytics Vidhya: Natural Language Processing Using Deep Learning

Artificial Intelligence

- CISCO Networking Academy: AI Fundamentals With IBM Skills Build

Network

- CISCO Networking Academy: Networking Basics
- CISCO Networking Academy: Cyber Threat Management
- CISCO Networking Academy: Network Defense
